**Re: Miles France, Senior Social Worker & Approved Mental Health Professional
Reference for Approval as Approved Clinician under the Mental Health Act 1983 as
amended**

I am a Consultant Psychiatrist and have been working in the Norfolk & Waveney Mental Health NHS Foundation Trust for the past 15 years. During approximately the past 14 years I have worked closely with Miles France. This is the basis for my reference.

I can confirm that I have read the testimonial dated 17 November 2011 from Dr William Crook, Consultant Psychiatrist, regarding Miles France's application for Approved Clinician training and in due course, status.

I can confirm, and am pleased to say, that I completely endorse the contents of that testimonial.

In addition to the evidence in Dr Crook's testimonial I can add that in recent years, going back approximately 10 years, I have worked with Miles in the context of the acute inpatients and Crisis Resolution and Home Treatment Services. He has shown all the skills described in Dr Crook's testimonial in these inpatient and acute home treatment settings. This is highly relevant to his application for Approved Clinician status, whereby he would potentially be fulfilling this type of role in inpatient settings, as well as community settings.

Therefore I have no hesitation whatsoever in fully supporting Mile France in this endeavour. I believe that he is more than capable of fulfilling the role of an Approved Clinician/Responsible Clinician in an effective and diligent manner.

22nd December 2011

Dr J Beezhold
Consultant in Emergency Psychiatry
